

Nano Facial Rejuvenation

Europe's hottest anti-aging treatment, nano technology is taking America by storm. It takes no longer than one hour per session to see and feel a difference in your skin. The wands that are applied to the face use nano electromagnetic currents that lift up the skin, diminish lines, and improve the color and tone of your skin. Recommended for all skin types, the nano current preset programs are designed to make sure you, the client, receives first class results with each treatment. Discovered by a number of A-

List celebrities, it is now the choice for women and men who want to make healthy, non-invasive changes to their skin but still receive the results of a natural facelift and take years off their face. Bellissimo Medical Salon & Spa is the only establishment in the state of Florida with this technology!

Our Nano Facial Rejuvenation Treatment consists of nine versatile programs: oxygenation, regeneration, lift, sculpting, firming, rejuvenation, deep cleansing, detoxification and ionization. Depending on your skin type and specific needs our experienced medical staff will select the program which is right for you.

Nano facial rejuvenation treatments are very relaxing and completely pain free for your face. Nano treatments can be done as a one-time special treatment or as a series of treatments to accomplish a more permanent change in your skin. It all depends on your goals. One treatment will cleanse, detoxify and refresh your skin and leave it glowing. We are working on the

cellular level, so the initial lift we achieve usually continues to hold for several days. For long lasting results, a series of treatments is recommended. The amount depends on several factors: age, skin condition, and lifestyle.

Bellissimo Medical Spa & Salon offers a free consultation and skin analysis. We discuss your goals, recommend a treatment plan and demonstrate the treatment so you can see your individual results. The initial appointment takes about 1 hour and appointments thereafter are 30 - 60 minutes.

The rejuvenation treatments can be combined with facials, microdermabrasion and chemical peels to achieve stunning results inside and out. Nano Facial Rejuvenation Treatments stimulates and tightens the facial muscles, increases blood circulation, aids in cell regeneration, reduces skin discoloration, eliminates toxins, dark circles and puffiness, firms and tones sagging skin and creates healthy skin. There is no pain, no down time and no side effects.

Dr. Jean Claude Nerette owns and operates Bellissimo Medical Spa & Salon. At Bellissimo we strike the perfect balance between the clinical and the luxurious. We provide an all-inclusive facility where you can receive salon services, as well as a visit with a Board Certified Physician for all your medical and health care needs.
